

Auto Ref / Keratometer CRK-7000

CHAROPS

CRK-7000

Designed For More Reliable And Accurate Refraction

CHAROPS CRK-7000 designed by HUVITZ in Korea helps you with more precise measurement of refractive power and corneal curvature. Its various functions make your practice more efficient and improve patient comfort.

Reliable Measurement Accuracy

Optimal Optical System

Huvitz's unique optic technology offers fast and accurate reading and enhances the reliability of the measurement results.

Keratometry Measurement

The reliable keratometry of CRK-7000 using 2 mire ring and 2 LEDs provides corneal curvature radius and corneal refractive power.

Auto Start

With auto start mode, the CRK-7000 maintain fogging throughout multiple measurements that makes ideal for use with children or other patients who find it difficult to fixate on the target chart.

More Advanced Functions

Wider Measurement Range

CRK-7000 provides more diagnostic information and superior performance with wide possible range of refraction and keratometry measurements.

CLBC(Contact Lens Base Curvature)

Measuring the base curvature of contact lens is useful in fitting contact lens patients.

PD(Pupillary Distance)

PD is automatically measured after checking both eyes. It saves your valuable time.

VD(Vertex Distance)

VD selection function(0, 12, 13.5, 15mm) offers more accurate measurement data.

Pupil and Iris Size Measurement

CRK-7000 can measure the size of pupil, cornea and iris under 14mm in diameter by freezing the image.

More Convenient To Use

5.7 inch Color LCD

5.7 inch Color LCD displays clear images and its image processing chip allows the LCD to show real time images.

Focusing Indicator

The focusing indicator appears on the screen when the eye is the optimal position.

Convenient One-Touch Lock

With the convenient one-touch lock, the main body can easily be fixed to the base.

High Speed Printer

The High speed printer print out the final measurement results in 3 seconds. The printing paper can be changed easily by adopting the one-touch paper holder.

Automatic Power-Off

The system automatically shuts off by itself to conserve energy and prevent overheating.

Realization of a Total Refraction System

CRK-7000 can be connected to HUVITZ refraction systems easily and simply.

CRK-7000

Auto Ref / Keratometer

Specification

Measurement Mode

K/R Mode	Continuous Keratometry & Refractometry
REF Mode	Refractometry
KER Mode	Keratometry
CLBC Mode	Contact Lens Base Curve Measurement

Refractometry

VD	0.0, 12.0, 13.5, 15.0mm
Sphere(SPH)	-20.00~+20.00D (VD=12mm) (Increments : 0.12 / 0.25)
Cylinder(CYL)	0.00~±10.00D (Increments : 0.12 / 0.25)
Axis(AX)	0~180° (Increments : 1°)
Cylinder From	-, +, ±
Pupil Distance	10~85mm
Minimum Pupil Diameter	Ø2.0mm

Keratometry

Radius of Curvature	5~10.2mm
Corneal Power	33.00~67.50D (Increments : 0.05 / 0.12 / 0 / 25D) (n=1.3375)
Corneal Astigmatism	0.00~15.00D (Increments : 0.05 / 0.12 / 0.25D)
Axis(AX)	0~180° (Increments : 1°)
Pupil, Iris Diameter	2.0~14.0mm (Increments : 0.1mm)
Memory Data	10 measurements for each data

Others

Internal Printer	Thermal Line Printer
Power Saving	Automatic Switch-Off (5min)
Display	5.7inch Color TFT LCD
Power Supply	AC100~240V, 50/60Hz
Dimension	275(W) X 510(D) X 450(H)mm / 20kg

Designs and details can be changed without prior notice for improvements.
